EXPERIENCE

WEB DEVELOPMENT & CONSULTING

Sept 2013 - now

Website development, re-design and support for small business and startup websites with WordPress, including on-site SEO, UX, usability and accessibility optimization.

INTUIT – SOFTWARE ENGINEER (FULL TIME)

Nov 2017 – Feb 2021

Scrum master: leading a remote, cross-functional team to success ahead of deadline for making QuickBooks Online mobile friendly on all devices.

Providing tools and strategies around product-wide CSS optimization and removal of redundant styles to resolve tech debt and optimize performance (patent pending).

Working with designers, analysts and product managers to develop and deploy multiple product features with React including solid unit and system test coverage in modern and legacy code bases.

Innovation Catalyst: teaching Design Thinking, facilitating internal and external workshops and talks on customer obsessed problem solving.

BRAGI - FRONT END DEVELOPER (FULL TIME)

May 2016 – Apr 2017

Building and maintenance of marketing pages, migration to WordPress, CDN setup on AWS, A/B testing and social media marketing support. Establishing team culture for tech workflows in a high paced startup environment.

LUDWIG MAXIMILIANS UNIVERSITY MUNICH – RESEARCH ASSISTANT

March 2011 – Sept 2015

Setup, maintenance and documentation of IT infrastructure for Linux and Windows servers, backup management, user support for hardware and software.
